

Manual Fan Switch

Part# AB-22220

2013+ RR/RX/RR-S/XT

Installation Instructions:

1. Turn off fuel, remove seat and fuel tank.
2. Install on/off switch on left side of handlebars see image 1.
3. Run the wires along the handlebar securing with the rubber straps shown in image 1.
4. Run the two wires along the frame directing the ring terminal to the ground on the frame see image 2.
5. Take the T-tap and find the red/blue wire on the your fan. Use pliers to close the tap on the wires see image 3.
6. Connect your male/female terminal to the tap see image 4.
7. Reinstall fuel tank and seat. Your fan switch is now ready for use!
