BETA RIDERS FINISH ON TWO PODIUMS AT ROUND 2 OF THE AMA EAST HARE SCRAMBLE SERIES!

AMA East Hare Scramble Series, Round 2:

Location: Martinsville, VA

Beta finished on two Pro podiums at round 2 of the packed East Hare Scramble series. Beta Support rider; Kyle Mcdonal battled for the lead all day and after finishing neck and neck he came in 2nd place just inches shy of 1st place. Beta Factory Rider; Rachel Gutish had another great performance solidifying her lead in the Women's Pro class after her second 1st place finish of the season!

KYLE MCDONAL

390 RR Race Edition

"I got off to an okay start heading into the woods in 7th out of 13 pros that lined up. I think the first lap caught a lot of riders by surprise being very slippery on the off camber hills. I rode steady the first lap with one small mistake to come out of the woods in 4th and only a few seconds off of first. On the second lap things started to tack up, so once we hit the open fields I pushed hard and was able to get into the lead. I remained in the lead the next lap and a half until a lap rider cleaned my front wheel out. Luckily second place and me gapped everyone else so I didn't drop far back. The next 3 laps I battled for the lead and it was awesome. Unfortunately at the checkered flag I fell short finishing tire to tire, but it was a good jump in the right direction after round one. Looking forward to a little time off to prepare for the next race!"

RACHEL GUTISH

300 RR Race Edition

"I had a great time at AMA East round two. The track was on the tighter and more technical side - lots of tree roots and dug out spots. I entered the woods in third and within several miles was able to pass my way up to the lead. Since they started the Women's class behind all of the A and B classes, I started catching slower guys from about a half-mile onward. I won the women's class by a pretty wide margin and fortunately experienced no adverse effects from my concussion last weekend. Looking forward to round two of the GNCC series next weekend."

AMA Big 6 Grand Prix Series, Round 3:

Location: Devore, CA

Series regulations have forced Chance Fullerton to now compete in the Pro 2 class at the Big 6 Grand Prix, and as a result the Pro 250 rider has taken home his first podium finish of the season. Fullerton took home a 3rd place finish after a long quagmire race!

CHANCE FULLERTON

250 RR Race Edition

"This weekends race went well! Fresh bike, class and mindset. Glad to be on the podium, not happy with the result but it's good to see progress. The course was a mud bath, but we made the best of it. Thanks to my mechanic and the whole team for standing behind me."
