### MIKE WITKOWSKI

Bike: 250 RR Race Edition

"The conditions were near perfect with great soil for racing. Day 1 of the race didn't go too well for me. I struggled to be aggressive and push the limits. I lost a lot of time to my competition, but on day 2 I made a couple changes at the beginning of the day. I won the first test of the day and was happy to see the quick improvements from a bad first day. I continued to ride better and went on to win a couple more tests. Although day 2 was better, I was down too much time from the weekend to take the win. I ended up 3rd for the weekend. Thank you everyone for the support."

**CODY BARNES**  
Bike: 250 RR Race Edition

"My race weekend started off well. I was turning very good times in both the cross test and Enduro test and was sitting in third place just a couple seconds off of second for the day. In the last cross test on Saturday I ended up dabbing my leg and twisting my knee. With my knee not being 100%, I decided to pull out of the final test on Saturday. I didn't race on Sunday that way nothing more happened to it to worsen my injury."
