## **The "do it all" Bike**

Beta is proud to launch the **2020 RR-S 125** model adding new colors for the new year.

The 2020 125 RR-S was designed for many different riders and is determined to **put a smile on all that experience it**. The bike is very reliable with its 125cc electric start 4 stroke engine that provides a soft power delivery yet enough torque to inspire riders of all abilities. All this while being **street legal in all 50 states**.

Beta owns the phrase **Rideability** and the 2020 125 RR-S continues this experience with a slim, lightweight bike that is safe, reliable, and **easy to ride** while creating a riding experience like no other manufacturer can provide.

Also new for 2020 is the ability for customers to order their 125 RR-S model straight from the factory with a 1.5" lower seat height over the stock models. These "lowboy" models have parts installed inside the front fork and rear shock to lower the seat height.

Prices: (No price increase for 2020)

\$4999.00

\*plus sales tax, license, and other dealer fees.

Availability: April
